

WES 4th Graders, along with Mr. Beach and Ms. Love, took a trip to outer space on October 11th. The class traveled to Oakley to visit the Kansas Cosmosphere group. It was a fun filled day of planets, rockets, liquid nitrogen ice cream, and maybe an explosion or two

COOL EXPERIMENTS!!

The class got to build their own rockets and see how far into space they would fly.

Below is an example of one of the rockets.

Learning about some of the items
used in space:
Underwear

Space food

Pop cans
